

TECHNICALLY SUPERIOR

- 1 Metal oxide**
In all 7 top coats giving superior wear and slip resistance
- 2 Polish**
7 coats of very low emission German polyurethane that is tough, non-yellowing and safe
- 3 Scientifically tested density**
Essential for matching floors to individual lifestyles
- 4 Tight bevel or square edged**
Minimizes shadow lines between boards. Easier cleaning
- 5 Exact layer thickness**
Ensures stability and increased sanding life
- 6 Colour selection**
Essential for even batch colour for control of colour variation. You get what you ordered
- 7 Colour treatment**
Essential for colour uniformity and no fungal staining
- 8 Exact machining**
Essential for high quality floor appearance
- 9 Expansion gap**
Provides resistance to cupping if the floor gets wet or experiences extreme humidity
- 10 Cross-lamination**
Essential to resist cupping
- 11 Glue**
Very low emission European glue that is safe and guarantees the boards do not delaminate
- 12 Insect treatment**
Essential for termite resistance
- 13 Controlled moisture content and seasoning**
Essential for stability and reduce shrinkage
- 14 Polished all surfaces**
Improves stability and moisture resistance
